

Sentiment Analysis

Uncover Hidden Investment Insights from **Glassdoor** **Reviews with** **Sentiment Analysis**

Overview

Institutional investors rely on thorough research on potential investments to make informed decisions. Glassdoor reviews reveal a company's internal environment, but manually sifting through millions of comments is impractical. Missing these valuable insights can lead to costly mistakes. Our AI-driven solution analyzes these reviews, identifies key cultural themes, and provides actionable scores, enabling smarter, data-driven investment decisions.

Key Features

AI-powered
sentiment analysis

Theme-specific
trend analysis

Quantification of
employee sentiment

Individual and intercompany
comparison

Top and bottom
performer analysis

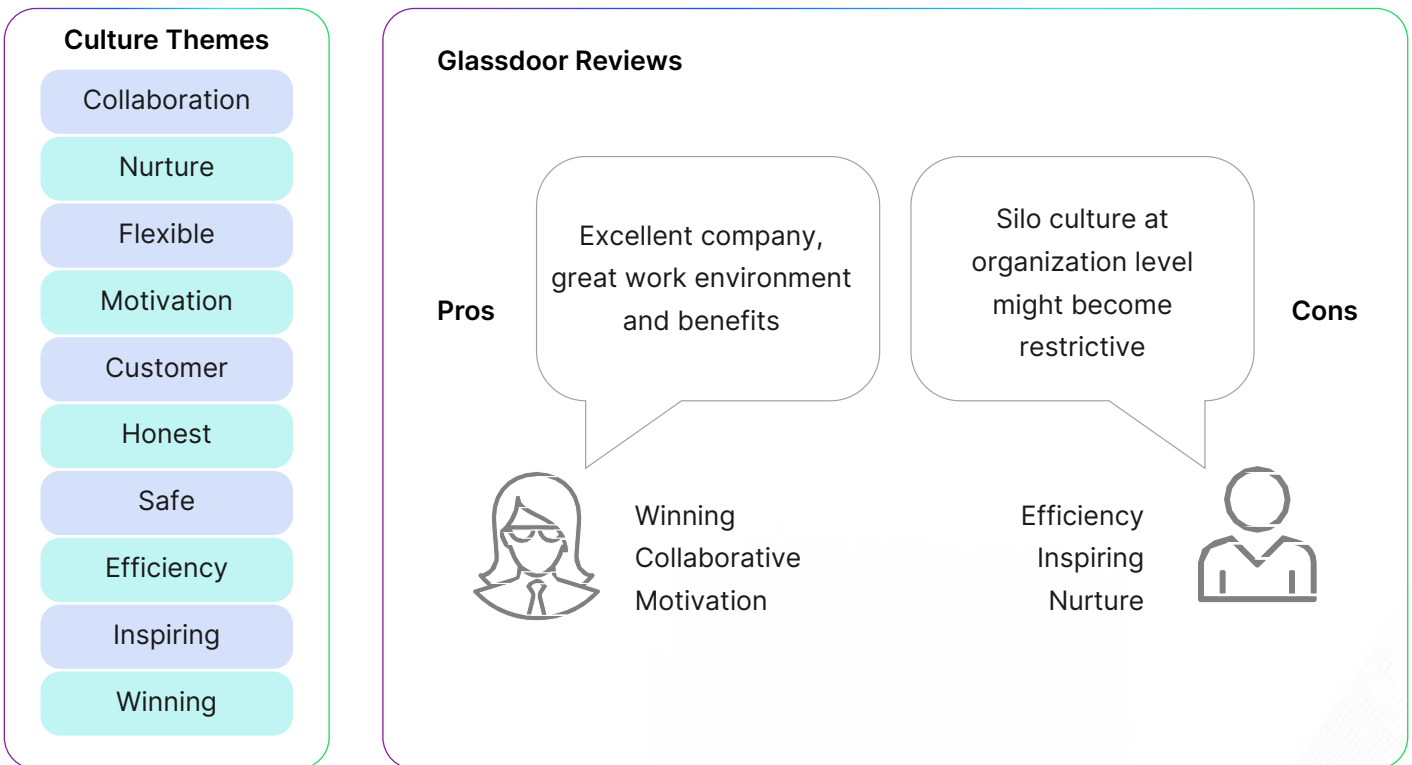

Proprietary ESG-based
investment signal
