

Endorsement Processing with GenAI

Transform Insurance Endorsement Processing with **AI-Powered Automation**

Overview

In the realm of P&C insurance, endorsement requests are predominantly managed through emails, leading to significant manual effort, high operational costs, and decreased customer satisfaction due to processing delays & errors. Our GenAI-powered Endorsement Automation Solution, utilizing DExTr Platform, automates the entire process with minimal human intervention. This solution ensures faster processing, improved accuracy, and enhanced customer satisfaction, revolutionizing the way endorsement requests are handled.

Key Features

Actionable insights for better business decisions

Adaptability to changing needs and handle high volumes

Efficient organize retrieval of policy details for quick access

Automatic categorization of endorsement requests

Task prioritization based on urgency and importance

Accurate classification of documents

Automatic verification of documents against predefined checklists

Data extraction from both structured and unstructured documents

Transform commercial insurance with **GenAI-powered automation**, reducing manual tasks, optimizing workflows, and enhancing customer satisfaction. Drive your business forward with optimized underwriting workflows.

Effortless Insurance Processing with GenAI for Superior Efficiency and Minimized Manual Tasks

Our GenAI-powered Endorsement Automation Solution automates the entire process with minimal human intervention by effectively processing large volumes of both structured and unstructured data, integrating automation to handle routine tasks and optimize underwriting workflows.

Automated Classification

Categorize endorsement requests for streamlined workflows

Document Verification

Verify documents against checklists for accuracy

Data Extraction

Extract relevant data to minimize errors

Data Warehouse

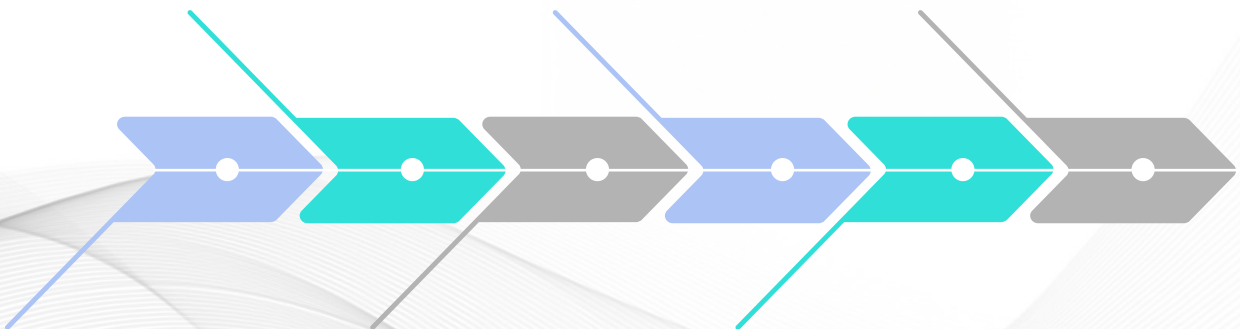

Organize and retrieve policy details quickly

Smart Prioritization

Prioritize tasks based on urgency and importance

Document Classification

Classify documents for streamlined processing

The SLK Advantage

Deep Industry Expertise

Extensive experience in the commercial insurance sector enables us to understand and address specific challenges.

Advanced Gen AI Solutions

Utilizes GenAI and DExTr Platform for optimal automation and efficiency.

Customizable Approach

Tailored solutions to meet your unique business needs and goals.

Compliance Assurance

Built-in compliance checks and automated audit trails to ensure regulatory adherence.

Seamless Integration

Smooth integration with existing systems, minimizing workflow disruption.

Continuous Support & Optimization

Ongoing support to ensure your operations remain efficient and up to date with industry standards.

Key Benefits

70%

Reduction in AHT

40%

Cost savings

- Automated Data Collection
- Efficient Indexing
- Compliance Checks
