

Quote AI

Enhance Customer Satisfaction with **SLK's Rapid AI-Powered Quote Generation**

Overview

Today, organizations face challenges in providing timely and efficient responses to customer inquiries and generating quote from emails. This is caused by manual, labour-intensive and error-prone process, huge volume of requests, longer response times, and inconsistencies in information provided. This leads to customer dissatisfaction, delayed order management, potential revenue loss to competition and overwhelmed staff.

SLK's **Quote AI** solution leverages advanced AI technologies to automate the entire email-to-quote process. This solution ensures faster response time, higher accuracy, and improved customer satisfaction by efficiently extracting, and validating data from customer emails to generate quotes.

Key Solution Functionalities

- Automated Email Monitoring

- Email Classification

- Email Intent Understanding

- Data Extraction Using OCR and AI

- Data Sufficiency Validation

- Questionnaire Generation Module

- Data Retrieval From External Client Systems

- Allocation Module

- Automatic Quote Generation

- Email Draft Generation

- Sales Review Platform for Quote Review

- Follow-Up Automation Ensuring Timely Customer Engagement

Key Benefits

90%

Reduction in lead time

70%

Of the quoting process automated

10%

Increase in sales conversions

Implement Quote AI for faster, precise quote generation. Boost sales efficiency and customer satisfaction.

The SLK Advantage

High-Volume Processing

Efficiently handles a large volume of quote requests, supporting business growth.

Regulatory Compliance

Ensures compliance with industry standards through automated processes.

Proven Efficiency

Automates up to 70% of the quoting process, reducing lead time from 3 weeks to 3 days.

Cost-Effective

Achieve significant cost savings by automating manual processes and reducing operational costs.

Seamless Integration

Integrates with existing systems, ensuring minimal disruption and maximum efficiency.

Regular Updates & Improvements

Continuous enhancements ensure the solution remains up-to-date and effective.

Customer-Centric Approach

Focuses on improving customer satisfaction with timely and accurate quotes.

Hosted in Cloud Environment

Ensures scalability and flexibility with a cloud-based deployment.
